# GAS CARRIERS

Bernhard Schulte Shipmanagement (BSM) has more than 50 years of experience in managing gas carriers, including the provision of design and consultancy services.

Over 115 gas carriers are currently managed by BSM to the extremely high standards demanded by the Liquid Natural Gas (LNG), Liquid Petroleum Gas (LPG) and ethylene transportation industries.

## WHY BSM

- Tanker Management and Self-Assessment (TMSA) Group Average rating of 3 and above, ensuring safe operation and optimum vessel performance.
- High quality operation demonstrated through regular oil major reviews, ensuring that vessels under management are maintained in peak condition throughout their entire life span.
- Extensive in-house expertise and active members of SIGTTO and SGMF, with senior executives holding prominent positions within these key industry bodies.
- Full compliance with International Safety Management (ISM) requirements to ensure safe and efficient vessel operation. LTIF Group Average below 1; TRCF Group Average of 2.
- Responsive, regionally based support provided through highly trained and specialised gas fleet teams.

## Gas carriers under management

## WHO WE ARE

BSM is an integrated maritime solutions leader with a strong heritage of more than 140 years in the shipping industry and a trusted partner of responsible and demanding customers worldwide.

Managing a fleet of 650 vessels, our 20,000 employees enable us to deliver safe, reliable and efficient shipmanagement services through a network of wholly owned shipmanagement, crew service and maritime training centres in over 30 locations around the world.

Focused on supporting business partners to achieve their objectives through the application of knowledge, experience and innovation, our commitment to every customer is:

- Maximum vessel availability, safety, reliability and efficiency to achieve higher income at the lowest possible operating cost.
- Protection of reputation through integrity, full compliance and a top quartile safety and performance record.
- Transparency and ready access to vessel information through proprietary 'LiveFleet' software.
