# CONTAINER VESSELS

Bernhard Schulte Shipmanagement (BSM) has over 45 years of experience in managing container vessels, with a focus on safe, efficient and cost effective operation whilst maximising commercial utilisation.

Over 130 container vessels are currently managed by BSM across our 11 regionally based Ship Management Centres, with carrying capacities up to 20,000 TEU.

## WHY BSM

- Extensive experience and proven ability to manage complex projects from original design and newbuild supervision through to comprehensive full management services.
- In-house planned management systems, ensure that ships under management are maintained in peak condition throughout their entire life span.
- Close monitoring of cargo and marine operations by skilled superintendents to achieve maximum operational efficiencies.
- Extensive reefer management capability to minimise risk of cargo spoiling.
- Full compliance with International Safety Management (ISM) requirements to ensure safe and efficient vessel operation.
- Responsive, regionally based support provided through highly trained and specialised dry cargo fleet teams.

## WHO WE ARE

BSM is an integrated maritime solutions leader with a strong heritage of more than 140 years in the shipping industry and a trusted partner of responsible and demanding customers worldwide.

Managing a fleet of 650 vessels, our 20,000 employees enable us to deliver safe, reliable and efficient shipmanagement services through a network of wholly owned shipmanagement, crew service and maritime training centres in over 30 locations around the world.

Focused on supporting business partners to achieve their objectives through the application of knowledge, experience and innovation, our commitment to every customer is:

- Maximum vessel availability, safety, reliability and efficiency to achieve higher income at the lowest possible operating cost.
- Protection of reputation through integrity, full compliance and a top quartile safety and performance record.
- Transparency and ready access to vessel information through proprietary 'LiveFleet' software.
