# TANKERS

Bernhard Schulte Shipmanagement (BSM) has over 40 years of experience in managing all types of tankers, with a focus on safe, efficient and cost effective management whilst maximising commercial utilisation.

Over 150 chemical, product and oil tankers of all sizes are currently managed by BSM across our 11 regionally based Ship Management Centres.

## WHY BSM

- Tanker Management and Self-Assessment (TMSA) Group Average rating of 3 and above, ensuring safe operation and optimum vessel performance.
- High quality operation demonstrated through regular oil major reviews, ensuring that vessels under management are maintained in peak condition throughout their entire life span.
- Stringent focus on energy efficiency and minimising environmental impact with no oil spill incident reported during the past 15 years.
- Full compliance with International Safety Management (ISM) requirements to ensure safe and efficient vessel operation. LTIF Group Average below 1; TRCF Group Average of 2.
- Responsive, regionally based support provided through highly trained and specialised tanker fleet teams.

## WHO WE ARE

BSM is an integrated maritime solutions leader with a strong heritage of more than 130 years in the shipping industry and a trusted partner of responsible and demanding customers worldwide.

Managing a fleet of 600 vessels, our 20,000 employees enable us to deliver safe, reliable and efficient shipmanagement services through a network of wholly owned shipmanagement, crew service and maritime training centres in over 30 locations around the world.

Focused on supporting business partners to achieve their objectives through the application of knowledge, experience and innovation, our commitment to every customer is:

- Maximum vessel availability, safety, reliability and efficiency to achieve higher income at the lowest possible operating cost.
- Protection of reputation through integrity, full compliance and a top quartile safety and performance record.
- Transparency and ready access to vessel information through proprietary 'LiveFleet' software.
